

INTERNSHIP DAY

accuSONUS

@ THE PATRAS INNOHUB, May 15th, 2012

Τρίτη 15 Μαΐου 2012

Vision: Our vision is to use our scientific skills and creativity in order to develop solid technologies that enhance our every-day **aural experiences**.

Mission Statement: The company's mission is to offer advanced solutions and unique business services for the **speech and music technology** sectors.

When: **early stage STARTUP** (but several years of R&D experience)

What does this mean for **YOU**?

WHO is WHO [2]

Founders: Alexandros Tsilfidis & Elias Kokkinis

Collaborators: Thanassis Drossos, Stavros Gasparatos, Giorgos Kostopoulos

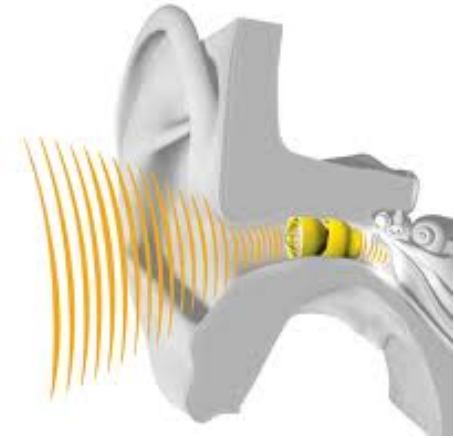

Where: Patras InnoHub

What: Speech & Audio Technology, Acoustics, Signal Processing,
Psychoacoustics

In 5 years: Become a key player in the global digital audio and speech technology market.

1. Hearing Aids Market

- Novel low-cost dereverberation algorithm
- Preliminary clinical tests showed that our algorithm enhances speech intelligibility & listening comfort
- Complete algorithmic framework for the suppression of reverberation, unwanted interference and noise.

2. Intelligent Audio Processing

- Novel music processing tools for musicians and sound engineers

1. Software on demand

- Multichannel audio player for the National University of Athens/ Audio & Video Multimedia applications for Marlboro Inc. & Camel Inc, etc.

2. Contract R&D

- Research collaboration with Audio and Acoustic Technology Group, Department of Electrical and Computer Engineering (University of Patras) and also Department of Audio Visual arts (Ionion University), Department of Electronics (TEI Piraeus)

3. Applied Psychoacoustics

4. Acoustics Consultancy

- Members of our team have been involved in several large scale projects (Acoustics and AV system design), including the Megaron Concert Hall, the Badminton Theatre and the Onassis Cultural Center in Athens.

1. iOS Developer

Build a framework to port our technologies

Prerequisites:

Excellent programming skills (Objective C, C, C++)

Signal processing

Good collaboration skills

Extras:

Music/Audio engineering background/experience

**EXTREMELY
MOTIVATED!**

2. +++
